1. The Executive Steering Group for Long-Range Strategic Planning agreed to meet approximately once per quarter. Sufficient progress has been made on the issues approved at the previous meeting to warrant discussion and further guidance. Thus, I suggest that a meeting be scheduled for mid-April to receive progress reports and discuss further actions. Assuming you concur, we will work with your secretary to fix a specific date and time and will prepare notification memoranda for your signature.

2. The preliminary agenda consists of the following items:

- a. 1985 Intelligence Capabilities Study Update;
- b. Long-Range Planning Structure;
- c. NFIP-FYDP Harmonization;
- d. Computer Security;
- e. Supercomputers;
- f. Space Intelligence Master Plan;
- g. Non-NFIB Contributions to Intelligence;
- [REDACTED]
- i. Telecommunications Requirements Study;
- j. Support to NWMP-II;
- k. DCI Goals and Objectives;
- l. Private Sector Planning;
- m. Critical Technologies;
- n. Friendly Threats; and
- o. Manpower.

25X1

Additionally, I plan to visit each principal in advance of the meeting to discuss any additional issues worthy of inclusion.

3. Although this agenda is quite lengthy, I am hopeful that some of the items can be dealt with by means of short written status reports provided to the members in advance.
